MoM

1.What happened in the meet
- First checked the understanding of the project by everyone.
- Decided meeting timings: every Monday and Friday 8-10 pm.
- Discussed on how to use the notion.
- Decided to put all the messages in the grp to make the group active and get help guidance from strat.
- Discussed a bit on different learning disabilities.
- Decided things to be done by the next meet.

2.Things to be done.
- Research upon NGO's we can approach to collaborate with and professors we can contact to get assistance during the project.(To be done during this vacation).
- Research upon 2 learning disabilities each in depth addressing the number of people effected by the disease,how curable or helpful will be our app for them,How to implement features to deal with the disability is that feasible technically and make report by saturday night and will be discussing them through whatsapp itself and decide which all diseases we are gonna address first.
